### INTEGRITY

#### DOING THE RIGHT THINGS, THE RIGHT WAY

We always be positive and maintain high standards of our work and behavior, treating people with respect, escalate the matter if it is the right thing to do.

### OWNERSHIP

#### TAKING CHARGE WITHOUT BEING ASKED

We will always offer solutions proactively, speak up on what is important for the company, we take charge instead of complaining

### AGILITY

#### MOVING WITH URGENCY & FOCUS

We always demonstrate urgency with speed, being adaptive to transformational changes. and simplify processes to drive results.

### EMPOWERMENT

#### AUTHORITY WITH ACCOUNTABILITY

We will always share relevant information to empower people.and give and receive feedback, We look at avenues to leverage technology.

### CUSTOMER DELIGHT

#### KNOWING WHAT TO FOCUS ON

We will always try to find a better way, anticipating needs and issues, with highly responsive towards our stakeholders.

## OUR PRODUCTS

We manufacture a wide variety of radiators to meet the diverse needs of our customers.

### Radiators for vehicle engines

Salama Radiator produces radiators of different types and sizes using both pure copper, and aluminum-reinforced copper for the most famous American, Japanese, European and Korean brands

### Radiators for Electricity Generators

In its effort to support the continuing development and expansion of the electricity generation sector in KSA, Salama Radiator Factory manufactures radiators for electricity generators that meet high engineering and technical standards in providing cooling solutions for electric power generators and adaptors.

## Radiators for Trains

Salama Radiator Factory has earned great reputation and trust among train manufacturers all over the world for its high-quality radiators which are used for cooling train engines and in managing their hydraulic and fuel systems.

## Radiators for Drilling and Mining Equipment

Salama Radiator Factory produces efficient and durable heavy-duty anticorrosion radiators designed specifically for surface-mining and open-pit equipment, such as handling, lifting, and drilling equipment.

## Radiators for Agricultural Equipment

The radiators for agricultural equipment manufactured by Salama Radiator Factory come with strong fins designed to withstand the harsh environment and high-temperature conditions typically found in agricultural farms.

## Radiators for Trucks and Heavy Vehicles

Salama Radiator Factory produces state-of-the-art radiators for trucks, buses, and heavy-duty vehicles designed to withstand high temperatures, corrosion, and very difficult operating conditions such as motion and mobility.

## Radiators for Military Equipment

Salama Radiator Factory manufactures highly reliable radiators for military vehicles and equipment, designed with special specifications.

# QUALITY IS IN OUR CORPORATE DNA

Salama Radiator Factory has built a well-admired reputation among its major competitors as a leading manufacturer of quality and reliable products and a provider of integrated maintenance and repair services designed to exceed both the trust and satisfaction of our clients in both public and private sectors.

To guarantee our products comply with the highest quality standards in the industry, the company imports the raw material for its high-quality finished products from reliable international suppliers. beforebeing converted to finished products, the raw materials first undergo several stages of rigorous testing and inspections to ensure that they comply with local and international quality standards.

For Salama Radiator Factory, quality is not only a desired goal we consistently strive to achieve but also a core part of our corporate DNA. In this regard, the company has over many years, received numerous quality certifications and accreditations in recognition of its commitment to delivering quality products at all times. Salama Radiator Factory has also been an active member of the National Automotive Radiator Service Association (NARSA) for over 20 years.

# QUALITY ASSURANCE SYSTEM

Salama Radiator Factory has received numerous quality certifications including the ISO 90012008 from reputable international organizations.The ISO 9001 2008 was later upgraded to the level of 2015:9001 due to the company’s success in applying additional standards.
